READING A ROW

Read left to right and say the sublevel labels as you pass them. Row 4: 4s, then 3d, then 4p. The d sublevel is always one level lower than the row; f is two lower.

NOBLE-GAS SHORTHAND

Start from the noble gas at the end of the row above, in brackets: [He] [Ne] [Ar] [Kr] [Xe] [Rn]. Then write the rest of the row in filling order.
